Every Car Enthusiast has the same Problem

1. Many enthusiasts cannot afford a classic car or are not willing to park liquidity in an asset like this. 'I'd love to drive a Ferrari Daytona but I can't afford £ 700k.'

2. Collectors often feel guilty about not being able to regularly use their cars. The cars are standing too much but still need maintenance. Collections are a big task in many respects.

3. Garaging, insurance, maintenance is a nightmare.

4. Pursuing this hobby alone might not be what people want.

SPARK®

Don't buy assets
Buy experiences

The solution. Fractional ownership.

SPARK®

is the NetJets for classic cars

The fleet in phase 1. 8 carefully curated classics. There is a plan but there is no order. We have an extensive list and will look for high quality opportunities.

Two hubs in Phase 1. Bicester Heritage in Oxfordshire 🇬🇧 and Zurich Motorworld 🇨🇭
Both offer a highly secure storage and skilled tradesmen for optimal maintenance.

The club is a well managed community with no tourists.
